MINISTRY OF HEALTH AND FAMILY WELFARE NOTIFICATION

New Delhi, the 27th March, 2014.

G.S.R. 218 (E).— In exercise of the powers conferred by section 24 of the Transplantation of Human Organs Act, 1994 (42 of 1994) and in supersession of the Transplantation of Human Organs Rules, 1995, except as respects things done or omitted to be done before such supersession, the Central Government hereby makes the following rules, namely:

 Short title and commencement — (1) These rules may be called the Transplantation of Human Organs and Tissues Rules, 2014

(2) They shall come into force on the date of their publication in the Official Gazette.

2. Definitions: - In these rules unless the context otherwise requires,-

(a) "Act" means the Transplantation of Human Organs Act, 1994;

(b) "cadaver(s)", "organ(s)" and "tissue(s)" means human cadaver(s), human organ(s) and human tissue(s), respectively;

- (c) "competent authority" means the Head of the institution or hospital carrying out transplantation or committee constituted by the head of the institution or hospital for the purpose;
- (d) "Form" means a Form annexed to these rules;
- (e) National Accreditation Board for Testing and Calibration Laboratories (NABL) means the autonomous body established under the aegis of Department of Science and Technology, Government of India with the objective to provide Government, Regulators and Industry with a scheme of laboratory accreditation through third-party assessment for formally recognising the technical competence of laboratories and the accreditation services are provided for testing and calibration of medical laboratories in accordance with International Organisation for Standardisation (ISO) Standards:
- (f) "the technician who can enucleate cornea" means the technician with any of the following qualifications and experience who can harvest corneas (enucleate eyeballs or excise corneas), namely:-
 - Ophthalmologists possessing a Doctor of Medicine (M.D) or Master of Surgery (M.S) in Ophthalmology or Diploma in Ophthalmology (D.O.); and
 - (ii) registered Doctors from all recognised systems of medicine, Nurses, Paramedical Ophthalmic Assistant, Ophthalmic Assistant, Optometriats, Refractionists, Paramedical Worker or Medical Technician with recognised qualification from all recognised systems of medicine, provided the person is duly trained to enucleate a donated cornea or eye from registered, authorised and functional eye Bank or Government medical college and, the training certificate should mention that he has acquired the required skills to independently conduct enucleation of the eye or removal of cornea from a cadaver;
- (9) words and expressions used and not defined in these rules, but defined in the Act, shall have the same meanings, respectively, assigned to them in the Act.
- 3. Authority for removal of human organs or tissues.—Subject to the provisions of Section 3 of the Act, a living person may authorise the removal of any organ or tissue of his or her body during his or her lifetime as per prevalent medical practices, for therapeutic purposes in the manner and on such conditions as specified in Form 1, 2 and 3.
- 4. Panel of experts for brain-stem death certification.—For the purpose of certifying the brain-stem death, the Appropriate Authority shall maintain a panel of experts, in accordance with the provisions of the Act, to ensure efficient functioning of the Board of Medical Experts and it remains fully operational.
- 5. Duties of the registered medical practitioner.— (1) The registered medical practitioner of the hospital having latensive Care Unit facility, in consultation with transplant coordinator, if available, shall ascertain, after certification of brain stem death of the person in Intensive Care Unit, from his or her adult near relative or, if near relative is not available, then, any other person related by blood or marriage, and in case of unclaimed body, from the person in lawful possession of the body the following, namely.—
 - (a) whether the person had, in the presence of two or more witnesses (at least one of who is a near relative of such person), unequivocally authorised before his or her death as specified in Form 7 or in documents like driving license, etc. wherein the provision for donation may be incorporated after notification of these rules, the removal of his or her organ(s) or tissue(s) including eye, after his or her death, for therapeutic purposes and there is no reason to believe that the person had subsequently revoked the aforesaid authorisation;
 - (b) where the said authorisation was not made by the person to donate his or her organ(s) or tissue(s) after his or her death, then the registered medical practitioner in consultation with the transplant coordinator, if available, shall make the near relative or person in lawful powersion of the body, aware of the option to authorise or decline the donation of such human organs or tissues or both (which can be used for therapeutic purposes) including eye or comes of the deceased person and a declaration or authorisation to this effect shall be ascertained from the near relative or person in lawful possession of the body as per Form 8 to record the status of consent, and in case of an unclaimed body, nuthorisation shall be made in Form 9 by the authorised official as per sub-section (1) of section 5 of the Act;
 - (c) after the near relative or person in lawful possession of the body authorises removal and gives consent for donation of human organ(s) or tissue(s) of the deceased person, the registered medical practitioner through the transplant coordinator shall inform the authorised registered Human Organ Retrieval Centre through authorised coordinating organisation by available documentable mode of communication, for removal, storage or transportation of organ(s) or tissue(s).
 - (2) The above mentioned duties shall also apply to the registered medical practitioner working in an Intensive Care Unit in a hospital not registered under this Act, from the date of notification of these rules
 - (3) The registered medical practitioner shall, before removing any human organ or tissue from a living donor, shall satisfy himself =
 - (a) that the donor has been explained of all possible side effects, hazards and complications and that the donor has given his or her authorisation in appropriate Form. I for near relative donor or Form 2 for spousal donor or Form 3 for donor other than near relative;

- (b) that the physical and mental evaluation of the donor has been done, he or she is in proper state of health and it has been certified that he or she is not mentally challenged and that he or she is fit to donate the organ or tissue.
 - Provided that in case of doubt regarding mentally challenged status of the donor the registered medical practitioner may get the donor examined by a psychiatrist and the registered medical practitioner shall sign the certificate as prescribed in Form 4 for this purpose:
- (c) that the donor is a near relative of the recipient, as certified in Form 5, and that he or she has submitted an application in Form 11 jointly with the recipient and that the proposed donation has been approved by the competent authority as defined at rule 2(c) and specified in Form 19 and that the necessary documents as prescribed and medical tests, as required, to determine the factum of near relationship, have been examined to the satisfaction of the registered medical practitioner and the competent authority.
- (d) that in case the recipient is spouse of the donor, the donor has given a statement to the effect that they are so related by signing a certificate in Form 2 and has submitted an application in Form 11 jointly with the recipient and that the proposed donation has been approved by the competent authority under the provisions of sub-rule (2) of rule 7:
- (e) that in case of a donor who is other than a near relative and has signed Form 3 and submitted an application in Form 11 jointly with the recipient, the permission from the Authorisation Committee for the said donation has been obtained;
- that if a donor or recipient is a foreign national, the approval of the Authorisation Committee for the said donation has been obtained;
- (g) living organ or tissue donation by minors shall not be permitted except on exceptional medical grounds to be recorded in detail with full justification and with prior approval of the Appropriate Authority and the State Government concerned.
- (4) A registered medical practitioner, before removing any organ or tissue from the body of a person after his or her death (deceased donor), in consultation with transplant coordinator, shall satisfy himself the following, namely:-
- (a) that caution has been taken to make inquiry, from near relative or person in lawful possession of the body of a person admitted in Intensive Care Unit, only after certification of Brain Stem death of the person that the donor had, in the presence of two or more witnesses (at least one of whom is a near relative of such person), unequivocally authorised before his or her death as specified in Form 7 or in documents like driving license etc. (wherein the provision for domation may be incorporated after notification of these rules), the removal of his or her organ(s) or tissue(s) after his or her death, for therapeutic purposes and it has been ascertained that the donor has not subsequently revoked the aforesaid authorisation, and the consent of near relative or person in lawful possession of the body shall also be required notwithstanding the authorisation been made by deceased donor.
 - Provided that if the deceased person who had earlier given authorisation but had revoked it subsequently and if the person had given in writing that his organ should not be removed after his death, then, no organ or tissue will be removed even if consent is given by the near relative or person in lawful possession of the body;
- (b) that the near relative of the deceased person or the person lawfully in possession of the body of the deceased donor has signed the declaration as specified in Form 8.
- (c) that in the case of brain-stem death of the potential donor, a certificate as specified in Form 10 has been signed by all the members of the Board of Medical Experts referred to in sub-section (6) of section 3 of the Act:
 - Provided that where a neurologist or a neurosurgeon is not available, an anesthetist or intensivist who is not part of the transplant team nominated by the head of the hospital duly empanelled by Appropriate Authority may certify the brain stem death as a member of the said Board;
- (d) that in the case of brain-stem death of a person of less than eighteen years of age, a certificate specified in Form 10 has been signed by all the members of the Board of Medical Experts referred to in sub-section (6) of section 3 of the Act and an authority as specified in Form 8 has been signed by either of the parents of such person or any near relative authorised by the parent.
- 6. Procedure for donation of organ or tissue in medicolegal cases.— (1) After the authority for removal of organs or tissues, as also the consent to donate organs from a brain-stem dead donor are obtained, the registered medical practitioner of the hospital shall make a request to the Station House Officer or Superintendent of Police or Deputy Inspector General of the area either directly or through the police post located in the hospital to facilitate timely retrieval of organs or tissue from the donor and a copy of such a request should also be sent to the designated post mortern doctor of area simultaneously.
 - (2) It shall be ensured that, by retrieving organs, the determination of the cause of death is not jeopardised.
 - (3) The medical report in respect of the organs or tissues being retrieved shall be prepared at the time of retrieval by retrieving doctor (s) and shall be taken on record in postmortem notes by the registered medical practitioner doing postmortem.

- (4) Wherever it is possible, attempt should be made to request the designated postmortem registered medical practitioner, even beyond office timing, to be present at the time of organ or tissue retrieval.
- (5) In case a private retrieval hospital is not doing post mortem, they shall arrange transportation of body along with medical records, after organ or tissue retrieval, to the designated postmortem centre and the post mortem centre shall undertake the postmortem of such cases on priority, even beyond office timing, so that the body is handed over to the relatives with least inconvenience.
- 7 Authorisation Committee.—(1) The medical practitioner who will be part of the organ transplantation team for carrying out transplantation operation shall not be a member of the Authorisation Committee constituted under the provisions of clauses (a) and (b) of sub-section(4) of section 9 of the Act.

(2) When the proposed donor or recipient or both are not Indian nationals or citizens whether near relatives or otherwise, the Authorisation Committee shall consider all such requests and the transplantation shall not be permitted if the recipient is a foreign national and donor is an Indian national unless they are near relatives.

- (3) When the proposed donor and the recipient are not near relatives, the Authorisation Committee shall,
 - evaluate that there is no commercial transaction between the recipient and the donor and that no payment has been made to the donor or promised to be made to the donor or any other person;
 - (ii) prepare an explanation of the link between them and the circumstances which led to the offer being
 - (iii) examine the reasons why the donor wishes to donate;
 - (ix) examine the documentary evidence of the link, e.g. proof that they have lived together, etc.;
 - (v) examine old photographs showing the donor and the recipient together;
 - (vi) evaluate that there is no middleman or tout involved;
 - (vii) evaluate that financial status of the donor and the recipient by asking them to give appropriate evidence of their vocation and income for the previous three financial years and any gross disparity between the status of the two must be evaluated in the backdrop of the objective of preventing commercial dealing;
 - (viii) ensure that the donor is not a drug addict,
 - (ix) ensure that the near relative or if near relative is not available, any adult person related to donor by blood or marriage of the proposed unrelated donor is interviewed regarding awareness about his or her intention to donate an organ or tissue, the authenticity of the link between the donor and the recipient, and the reasons for donation, and any strong views or disagreement or objection of such kin shall also be recorded and taken note of.
- (4) Cases of swap donation referred to under subsection (3A) of section 9 of the Act shall be approved by Authorisation Committee of hospital or district or State in which transplantation is proposed to be done and the donation of organs shall be permissible only from near relatives of the swap recipients.
- (5) When the recipient is in a critical condition in need of life saving organ transplantation within a week, the donor or recipient may approach hospital in-charge to expedite evaluation by the Authorisation Committee.
- 8. Removal and preservation of organs or tissues.—The removal of the organ(s) or tissue(s) shall be permissible in any registered retrieval or transplant bospital or centre and preservation of such removed organ(s) or tissue(s) shall be ensured in registered retrieval or transplant centre or tissue bank according to current and accepted scientific methods in order to ensure viability for the purpose of transplantation.
- Cost for maintenance of cadaver or retrieval or transportation or preservation of organs or tissues.—The cost for maintenance of the cadaver (brain-stem dead declared person), retrieval of organs or tissues, their transportation and preservation, shall not be borne by the donor family and may be borne by the recipient or institution or Government or non-Government organisation or society as decided by the respective State Government or Union territory Administration.
- 10. Application for living donor transplantation.— (1) The donor and the recipient shall make jointly an application to grant approval for removal and transplantation of a human organ, to the competent authority or Authorisation Committee as specified in Form 11 and the papers for approval of transplantation would be processed by the registered medical practitioner and administrative division of the Institution for transplantation.
 (2) The competent authority or Authorisation Committee shall take a decision on such application in accordance with the rule 18.
 - (3) If some State wants to merge Form 11 with Form 1, Form 2 or Form 3, they may do so, provided the content of the recommended Forms are covered in the merged Form and the same is approved by the State Government
- 11. Composition of Authorisation Committees,—(1) There shall be one State level Authorisation Committee
 - (2) Additional Authorisation Committees in the districts or Institutions or hospitals may be set up as per norms given below, which may be revised from time to time by the concerned State Government or Union territory Administration by notification.
 - (3) No member from transplant team of the institution should be a member of the respective Authorisation Committee.

14

- (4) Authorisation Committee should be hospital based if the number of transplants is twenty five or more in a year at the respective transplantation centres, and if the number of organ transplants in an institution or hospital are less than twenty-five in a year, then the State or District level Authorisation Committee would grant approval(s).
- 12 Composition of hospital based Authorisation Committees.— The hospital based Authorisation Committee shall, as notified by the State Government in case of State and by the Union territory Administration in case of Union territory, consist of.—
 - the Medical Director or Medical Superintendent or Head of the institution or hospital or a senior medical person officiating as Head - Chairperson;
 - (b) two senior medical practitioners from the same hospital who are not part of the transplant team Member.
 - (c) two persons (preferably one woman) of high integrity, social standing and credibility, who have served in high ranking Government positions, such as in higher judiciary, senior cadre of police service or who have served as a reader or professor in University Grants Commission approved University or are self-employed professionals of repute such as lawyers, chartered accountants, doctors of Indian Medical Association, reputed non-Government organisation or renowned social worker - Member.
 - (d) Secretary (Health) or nominee and Director Health Services or nominee from State Government or Union territory Administration - Member.
- 13. Composition of State or District Level Authorisation Committees.— The State or District Level Authorisation Committee shall, as notified by the State Government in case of State and by the Union territory Administration in case of Union territory, consist of.—
 - a Medical Practitioner officiating as Chief Medical Officer or any other equivalent post in the main or major Government hospital of the District – Chairperson;
 - (b) two senior registered medical practitioners to be chosen from the pool of such medical practitioners who are residing in the concerned District and who are not part of any transplant team—Member;
 - (c) two persons (preferably one woman) of high integrity, social standing and credibility, who have served in high ranking Government positions, such as in higher judiciary, senior cadre of police service or who have served as a reader or professor in University Grants Commission approved University or are self-employed professionals of repute such as lawyers, chartered accountants, doctors of Indian Medical Association, reputed non-Government organisation or renowned social worker - Member;
 - (d) Secretary (Health) or nomince and Director Health Services or nomince from State Government or Union territory Administration—Member:

Provided that effort shall be made by the State Government concerned to have most of the members' ex-officio so that the need to change the composition of Committee is less frequent.

- Verification of residential status, etc.—When the living donor is unrelated and if donor or recipient belongs to a State or Union territory, other than the State or Union territory where the transplantation is proposed to be undertaken, verification of residential status by Tehsildar or any other authorised officer for the purpose with a copy marked to the Appropriate Authority of the State or Union territory of domicile of donor or recipient for their information shall be required, as per Form 20 and in case of any doubt of organ trafficking, the Appropriate Authority of the State or Union territory of domicile or the Tehsildar or any other authorised officer shall inform police department for investigation and action as per the provisions of the Act.
- 15. Quorum of Authorisation Committee.— The quorum of the Authorisation Committee should be minimum four and the quorum shall not be complete without the participation of the Chairman, the presence of Secretary (Health) or nominee and Director of Health Services or nominee.
- 16. Format of approval of Authorisation Committee.— The format of the Authorisation Committee approval should be uniform in all the institutions in a State and the format may be notified by the respective State Government as per Form 18.
- 17. Scrutiny of applications by Authorisation Committee.— (1) Secretariat of the Authorisation Committee shall circulate copies of all applications received from the proposed donors and recipients to all members of the Committee along with all annexures, which may have been filed along with the applications.
- (2) At the time of the meeting, the Authorisation Committee should take note of all relevant contents and documents in the course of its decision making process and in the event any document or information is found to be inadequate or doubtful, explanation should be sought from the applicant and if it is considered necessary that any fact or information requires to be verified in order to confirm its veracity or correctness, the same be ascertained through the concerned officer(s) of the State Government or Union territory Administration
- 18. Procedure in case of near relatives.— (1) Where the proposed transplant of organs is between near relatives related genetically, namely, grandmother, grandfather, mother, father, brother, sister, son, daughter, grandson and granddaughter, above the age of eighteen years, the competent authority as defined at rule 2(c) or Authorisation Committee (in case donor or recipient is a foreigner) shall evaluate:
 - documentary evidence of relationship e.g. relevant birth certificates, marriage certificate, other relationship certificate from Tehsildar or Sub-divisional magistrate or Metropolitan Magistrate or

Sarpanch of the Panchayat, or similar other identity certificates like Electors Photo Identity Card or AADHAAR card; and

- documentary evidence of identity and residence of the proposed donor, ration card or voters identity card or pastport or driving beense or PAN card or bank account and family photograph depicting the proposed donor and the proposed recipient along with another near relative, or similar other identity (iii) certificates like AADHAAR Card (issued by Unique Identification Authority of India)
- If in the opinion of the competent authority, the relationship is not conclusively established after evaluating the above evidence, it may in its discretion direct further medical test, namely, Deoxyribonucleic Acid (DNA) (2)
- The test referred to in sub-rule (2) shall be got done from a laboratory accredited with. National Accreditation Board for Testing and Calibration Laboratories and certificate shall be given in Form 5. (3)
- If the documentary evidences and test referred to in sub-rules (1) and (2), respectively do not establish a genetic relationship between the donor and the recipient, the same procedure he adopted on preferably both or at least one parent, and if parents are not available, the same procedure be adopted on such relatives of donor and (4) recipient as are available and are willing to be tested, failing which, genetic relationship between the donor and
- Where the proposed transplant is between a married couple the competent authority or Authorisation Committee (in case donor or recipient is a foreigner) must evaluate the factum and duration of marriage and ensure that documents such as marriage certificate, marriage photograph etc. are kept for records along with the information (5) on the number and age of children and a family photograph depicting the entire family, birth certificate of children containing the particulars of parents and issue a certificate in Form 6 (for spousal donor)
- Any document with regard to the proof of residence or domicile and particulars of parentage should be relatable to the photo identity of the applicant in order to ensure that the documents pertain to the same person, who is the proposed donor and in the event of any inadequate or doubtful information to this effect, the Competent (6) Authority or Authorisation Committee as the case may be, may in its discretion seek such other information or evidence as may be expedient and desirable in the peculiar facts of the case.
- The medical practitioner who will be part of the organ transplantation team for carrying out transplantation operation shall not be a competent authority of the transplant hospital (7)
- The competent authority may seek the assistance of the Authorisation Committee in its decision making, if (8)
- Where the proposed transplant is between other than near relatives and all cases where the donor or recipient is foreign national (irrespective of them being near relative or otherwise), the approval will be granted by the 19. Authorisation Committee of the hospital or if hospital based Authorisation Committee is not consututed, then by the District or State level Authorisation Committee

Procedure in case of foreigners.-

20.

When the proposed donor or the recipient are foreigners,

- (a) a senior Embassy official of the country of origin has to certify the relationship between the donor and the recipient as per Form 21 and in case a country does not have an Embassy in India, the certificate of relationship, in the same format, shall be issued by the Government of that country.
- (b) the Authorisation Committee shall examine the cases of all Indian donors consenting to donate organs to a foreign national (who is a near relative), including a foreign national of Indian origin, with greater caution and such cases should be considered rarely on case to case basis. Provided that the Indian living donors wanting to donote to a foreigner other than near relative shall not be
- Eligibility of applicant to donate.— In the course, of determining eligibility of the applicant to donate, the applicant should be personally interviewed by the Authorisation Committee which shall be videographed and 21. minutes of the interview shall be recorded.

In case where the donor is a woman, greater precautions ought to be taken and her identity and independent

- Decision of Authorisation Committee.—(1) The Authorisation Committee (which is applicable only for living organ or tissue donor)should state in writing its reason for rejecting or approxing the application of the proposed living donor in the prescribed Form 18 and all such approvals should be subject to the following 23.
 - the approved proposed donor would be subjected to all such medical tests as required at the relevant conditions, namely:stages to determine his or her biological capacity and compatibility to donate the organ in question,
 - the physical and mental evaluation of the donor has been done to know whether he or she is in proper state of health and it has been certified by the registered medical practitioner in Form 4 that he or she is (11) not mentally challenged and is fit to donate the organ or tissue

26.

- Provided that in case of doubt for mentally challenged status of the donor the registered medical practitioner or Authorisation Committee may get the donor examined by psychiatrist,
- all prescribed forms have been and would be filled up by all relevant persons involved in the process of (iii)
- The Authorisation Committee shall expedite its decision making process and use its discretion judiciously and pragmatically in all such cases where, the patient requires transplantation on urgent basis. (2)
- Every authorised transplantation centre must have its own website and the Authorisation Committee is required to take final decision within twenty four hours of holding the meeting for grant of permission or rejection for (3)
- The decision of the Authorisation Committee should be displayed on the notice board of the hospital or Institution immediately and should reflect on the website of the hospital or Institution within twenty four hours (4) of taking the decision, while keeping the identity of the recipient and donor hidden
- Registration of hospital or tissue bank.— (1) An application for registration shall be made to the Appropriate Authority as specified in Form 12 or Form 13 or Form 14 or Form 15, as applicable and the application shall be 24. accompanied by fee as specified below, payable to the Appropriate Authority by means of a bank draft, which may be revised, if necessary by the Central or State Government, as the case may be
 - for Organ or Tissue or Comea Transplant Centre: Rupees ten thousand:
 - for Tissue or Eye Bank: Rupees ten thousand; (iii)
 - for Non-Transplant Retrieval Centre: Nil.
- The Appropriate Authority shall, after holding an inquiry and after satisfying itself that the applicant has complied with all the requirements, grant a certificate of registration as specified in Form 16 and it shall be valid (2)for a period of five years from the date of its issue and shall be renewable.
- Before a hospital is registered under the provisions of this rule, it shall be mandatory for the hospital to appoint a (3)
- Renewal of registration of hospital or tissue bank.— (1) An application for the renewal of a certificate of registration shall be made to the Appropriate Authority at least three months prior to the date of expiry of the 25. original certificate of registration and shall be accompanied by a fee as specified below, payable to the Appropriate Authority by means of a bank draft, which may be revised, if necessary by the Central or State Government, as the case may be,
 - for Organ or Tissue or Cornea Transplant Centre: Rupees five thousand: (iii
 - for Tissue or Eye Bank: Rupees five thousand; (iii)
 - for Non-Transplant Retrieval Centre: Nil.
- A renewal certificate of registration shall be as specified in Form 17 and shall be valid for a period of five years. If, after an inquiry including inspection of the hospital or tissue bank and scrutiny of its past performance and (2) after giving an opportunity to the applicant, the Appropriate Authority is satisfied that the applicant, since grant (3) of certificate of registration under sub-rule (2) of rule 24 has not complied with the requirements of the Act and these rules and the conditions subject to which the certificate of registration has been granted, shall, for reasons
 - to be recorded in writing, refuse to grant renewal of the certificate of registration Conditions and standards for grant of certificate of registration for organ or tissue transplantation centres.— (1) No hospital shall be granted a certificate of registration for organ transplantation unless it fulfalls
 - the following conditions and standards, namely-General manpower requirement specialised services and facilities: A.
 - (a) Twenty-four hours availability of medical and surgical, (senior and junior) staff;
 - (b) twenty-four hours availability of mursing staff (general and specialty trained);
 - (c) twenty-four hours availability of Intensive Care Units with adequate equipment staff and support system, including specialists in anesthesiology and intensive care;
 - (d) twenty-four hours availability of blood bank (in house or access) , laboratory with multiple discipline testing facilities including but not limited to Microbiology, Bio-Chemistry, Pathology, Hematology and
 - (e) twenty-four hours availability of Operation Theater facilities (OT facilities) for planned and emergency procedures with adequate staff, support system and equipment,
 - twenty-four hours availability of communication system, with power backup, including but not limited to multiple line telephones, public telephone systems, fax, computers and paper photo-imaging
 - experts (other than the experts required for the relevant transplantation) of relevant and associated specialties including but not limited to and depending upon the requirements, the experts in internal medicine, diabetology, gastroenterology, nephrology, neurology, pediatrics, gynecology, immunology and cardiology, etc., shall be available in the transplantation centre;

- one medical expert for respective organ or tissue transplant shall be available in the transplantation
- Human Leukocyte Antigen (HLA) matching facilities (in house or outsourced) shall be available.

B.

Equipments as per current and expected scientific requirements specific to organ (s) or tissue (s) being transplanted and the transplant centre should ensure the availability of the accessories, spare-parts and back-up. maintenance and service support system in relation to all relevant equipments.

Experts and their qualifications:

- Kidney Transplantation (a)
- M.S. (Gen.) Surgery or equivalent qualification with three years post M.S. training in a recognised transplant center in India or abroad and having attended to adequate number of renal transplantation as an active member of team.
- Transplantation of liver and other abdominal organs. (b)
- M.S. (Gen.) Surgery or equivalent qualification with three years post M.S. experience in the speciality and having one year training in the respective organ transplantation as an active member of team in an established transplant center,
- Cardiac, Pulmonary, Cardio-Pulmonary Transplantation: (0)
 - M.Ch. Cardio-thoracic and vascular surgery or equivalent qualification in India or abroad with at least three years' experience as an active member of the team performing an adequate number of open heart operations per year and well-versed with Coronary by-pass surgery and Heart-valve surgery.
- the hospital registered under Clinical Establishment (Registration and Regulation) Act. 2010 (23 of 2010) shall also follow the minimum standards prescribed in respect of manpower, equipment, etc., as prescribed under that (d)
- the hospital registered shall have to maintain documentation and records including reporting of adverse events. (8)
- No hospital shall be granted a certificate of registration for tissue transplantation under the Act unless it fulfills (2) the following conditions and standards, namely:-
- (a)
- M.D. or M.S. or Diploma (DO) in ophthalmology or equivalent qualification with three months post M.D. or M.S or DO training in Corneal transplant operations in a recognised hospital or institution;
- (b)
- Other tissues such as heart valves, skin, bone, etc. Post graduate degree (MD or MS) or equivalent qualification in the respective specialty with three months post M.D. or M.S training in a recognised hospital carrying out respective tissue transplant operations and for heart valve transplantation, and the qualification and experience of expert shall be MCh degree in Cardiothoracic and Vascular Surgery (CTVS) or equivalent qualification with three months post MCh training in a recognised hospital carrying out heart valve transplantation;
- the Hospital registered under Clinical Establishment (Registration and Regulation) Act, 2010(23 of 2010) shall also follow the minimum standards prescribed in respect of manpower, equipment, etc., as prescribed under that (c)
- the Hospital registered shall have to maintain documentation and records including reporting of adverse events.
- Conditions and standards for grant of certificate of registration for organ retrieval centres.-(d) 27.
- The retrieval center shall be registered only for the purpose of retrieval of organ from deceased donors and the organ retrieval centre shall be a hospital having Intensive Care Unit (ICU) facilities along with manpower, (1) infrastructure and equipment as required to diagnose and maintain the brain-stem dead person and to retrieve and transport organs and tissues including the facility for their temporary storage.
- All hospitals registered as transplant centres shall automatically qualify as retrieval centres
- The retrieval centre should have linkages with nearby Government hospital designated for post-mortem, for (2) (3)
- Registration of hospital for surgical tissue harvesting from deceased person and for surgical tissue residues, that (4) are routinely discarded, shall not be required.
- 28. Conditions and standards for grant of certificate of registration for tissue banks.—
- (1) Facilities must conform to the standards and guidelines laid down for the purpose and the States and Union territories may have separate registration fee and procedure to keep track of their tissue bank activities.
- (2) The respective State or Union territory Appropriate Authority may constitute an expert committee for advising on the matter related to tissue specific standards and related issues
- (3) The tissue bank must have written guidelines and standard operating procedures for maintenance of its premises and facilities which include-
 - (a) controlled access,
 - (b) cleaning and maintenance systems;
 - (c) waste disposal;

- (d) health and safety of staff;
- (e) risk assessment protocol; and
- (f) follow up protocol.
- (4) Equipments as per scientific requirements specific to tissue (s) being procured, processed, stored and distributed and the tissue bank should ensure the availability of the accessories, spare-parts and back-up, maintenance and service support for all equipments.
- (5) Air particle count and microbial colony count compliance shall be ensured for safety where necessary
- (6) Storage area shall be designated to avoid contact with chemicals or atmospheric contamination and any known source of infection.
- (7) Storage facility shall be separate and distinguish tissues, held in quarantine, released and rejected.

B. Donor screening:

(8) Complete screening of donor must be conducted including medical or social history and serological evaluation for medical conditions or disease processes that would contraindicate the donation of tissues and the report of corneas or eyes not found suitable for transplantation and their alternate use shall be certified by a committee of two Ophthalmologists

C. Laboratory tests:

(9) Facility for relevant Laboratory tests for blood and tissue samples shall be available and testing of blood and tissue samples shall begin at Donor Screening and continue during retrieval and throughout processing.

D. Procurement and other procedures:

- (10) Procurement of tissue must be carried out by registered health care professionals or technicians having necessary experience or special training
- (11) Consent for the procurement shall be obtained.
- (12) Procurement records shall be maintained.
- (13) Standard operating procedure for following shall be followed, namely :-
 - (a) procurement or Retrieval and transplantation:
 - (b) processing and sterilisation;
 - (c) packaging, labeling and storage;
 - (d) distribution or allocation:
 - (e) transportation; and
 - (f) reporting of serious adverse reactions.

E. Documentation and Records:

- (14) A log of tissue received and distributed shall be maintained to enable traceability from the donor to the tissue and the tissue to the donor and the records shall also indicate the dates and the identities of the staff performing specific steps in the removal or processing or distribution of the tissues.
- F. Data Protection and Confidentiality:
- (15) A unique donor identification number shall be used for each donor, and access to donor records shall be restricted.

G. Quality Management:

- (16) The Quality Management System shall define quality control procedures that include the following, namely:-
 - (a) environmental monitoring;
 - (b) equipment maintenance and monitoring;
 - (c) in -process controls monitoring:
 - (d) internal audits including reagent and supply monitoring.
 - (e) compliance with reference standards, local regulations, quality manuals or documented standard operating procedures; and
 - (f) monitoring work environment,

H. Recipient Information:

- (17) All tissue recipients shall be followed up and prompt and appropriate corrective and preventive actions taken in case of adverse events.
- 29. Qualification, role, etc., of transplant coordinator. (1) The transplant coordinator shall be an employee of the registered hospital having qualification such as:
 - (a) graduate of any recognised system of medicine; or
 - (b) Nurse; or
 - (c) Bachelor's degree in any subject and preferably Master's degree in Social work or Psychiatry or Sociology or Social Science or Public Health
- (2) The concerned organisation or institute shall ensure initial induction training followed by retraining at periodic interval and the transplant coordinator shall counsel and encourage the family members or near relatives of the

deceased person to donate the human organ or tissue including eye or comea and coordinate the process of donation and transplantation.

(3) The transplant coordinator or counselor in a hospital registered for eye banking shall also have qualification

specified in sub-rule (1).

Advisory committee of the Central or State Government to aid and advise appropriate authority.— (1) 30. The Central Government and the State Government, as the case may be, shall constitute by notification an Advisory Committee under Chairpersonship of administrative expert not below the rank of Secretary to the State Government for a period of two years to aid and advise the Appropriate Authority and the two medical experts referred to in clause(b) of sub-section(2) of section 13A of the Act shall possess a postgraduate medical degree and at least five years' experience in the field of organ or tissue transplantation.

(2) The terms and conditions for appointment to the Advisory Committee are as under

(a) the Chairperson and members of the Committee shall be appointed for a period of two years.

- (b) the Chairperson and members of the Committee shall be entitled to the air fare and other allowances to attend the meeting of the Committee equivalent to the officer of the level of the Joint Secretary to the Government of
- the Central Government or State Government or Union territory Administration shall have full powers to replace or remove the Chairperson and the members in cases of charges of corruption or any other charges after giving a reasonable opportunity of being heard:

(d) the Chairperson and members can also resign from the Committee for personal reasons;

- (e) there shall not be a corruption or criminal case pending against Chairperson and members at the time of appointment:
- (f) the Chairperson or any of the members shall cease to function if charges have been framed against him or her in a corruption or criminal case after having been given a reasonable opportunity of being heard.
- Manner of establishing National or Regional or State Human Organs and Tissues Removal and Storage Networks and their functions.— (1) There shall be an apex national networking organisation at the centre, as the Central Government may by notification specify.
- There shall also be regional and State level networking organisations where large number of transplantation of (2) organ(x) or tissue (s) are performed as the Central Government may by notification specify.
- The State units would be linked to hospitals, organ or tissue matching laboratories and tissue banks within their (3)area and also to regional and national networking organisations.
- The broad principles of organ allocation and sharing shall be as under,-(4)
 - (a) The website of the transplantation center shall be linked to State or Regional cum State or National networks through an online system for organ procurement, sharing and transplantation
 - (b) patient or recipient may get registered through any transplant centre, but only one centre of a State or region (if there is no centre in the State) and his or her details shall be made available online to the networking organisations, who shall allocate the registration number, which shall remain same even if patient changes hospital;
 - the allocation of the organ to be shared, is to be decided by the State networking organization and by the National networking organization in case of Delhi;
 - (d) all recipients are to be listed for requests of organs from deceased donors, however priority is to be given in following order, namely:
 - those who do not have any suitable living donor among near relatives,
 - those who have a suitable living donor available among near relatives but the donor has refused in (ii) writing to donate; and
 - those who have a suitable living donor available and who has also not refused to donate in
 - (e) sequence of allocation of organs shall be in following order: State list----Regional List-----National List----Person of Indian Origin ---- Foreigner,
 - (f) the online system of networking and framework and formats of national registry as mentioned under rule 32 shall be developed by the apex networking organisation which shall be followed by the States Governments or Union territory Administrations and the allocation criteria may be State specific which shall be finalised and determined by the State Government, in consultation with the State level networking organisation, wherever such organisation exists:

Provided that the organ sharing and networking policy of States or locations of hospitals shall not be binding on the Armed Forces Medical Services (AFMS) and the armed forces shall be free to have their own policy of organ or tissue allocation and sharing, and the Director General Armed Forces Medical Services shall have its own networking between the Armed Forces Medical Services hospitals, who shall be permitted to accept organs when available from hospitals with in their State jurisdiction

- The networking organisations shall coordinate retrieval, storage, transportation, matching, allocation and (5) transplantation of organs and tissues and shall develop norms and standard operating procedures for such activities and for tissues to the extent possible.
- The networking organisations shall coordinate with respective State Government for establishing new transplant (6) and retrieval centres and tissue banks and strengthening of existing ones.
- There shall be designated organ and tissue retrieval teams in State or District or institution as per requirement, to (7) be constituted by the State or Regional networking organisation.
- formed by the reams. shall the retrieval tissue retrieval. (8) State Government or Union territory Administration where ever required.
- Networking shall be e-enabled and accessible through dedicated website.
- Reference or allocation criteria would be developed and updated regularly by networking organisations in (10) consultation with the Central or State Government, as the case may be
- The networking organisation(s) shall undertake Information Education and Communication (IEC) Activities for (H) promotion of deceased organ and tissue donation.
- The networking organisation(s) shall maintain and update organ or tissue Donation and Transplant Registry at (12) respective level.
- Information to be included in National Registry regarding donors and recipients of human organ and The national registry shall be based on the following, namely:-

Organ Transplant Registry:

- (1) The Organ Transplant Registry shall include demographic data about the patient, donor, hospitals, recipient and donor follow up details, transplant waiting list, etc., and the data shall be collected from all retrieval and transplant centers.
- (2) Data collection frequency, etc., will be as per the norms decided by the Advisory Committee which may preferably be through a web-based interface or paper submission and the information shall be maintained both specific organ wise and also in a consolidated format.
- (3) The hospital or Institution shall update its webtite regularly in respect of the total number of the transplantations done in that hospital or institution along with reasonable detail of each transplantation and the same data should be accessible for compilation, analysis and further use by authorised persons of respective State Governments and Central Government.
- (4) Yearly reports shall be published and also shared with the contributing units and other stakeholders and key events (new patients, deaths and transplants) shall be notified as soon as they occur in the hospital and this information shall be sent to the respective networking organisation, at least monthly.

Organ Donation Registry:

(5) The Organ Donation Registry shall include demographic information on donor (both living and deceased), hospital, height and weight, occupation, primary cause of death in case of deceased donor, associated medical illnesses. relevant laboratory tests, donor maintenance details, driving license or any other document of pledging donation, donation requested by whom, transplant coordinator, organs or tissue retrieved, outcome of donated organ or tissue, details of recipient, etc.

Tissue Registry:

- (6) The Tissue Registry shall include demographic information on the tissue donor, site of tissue retrieval or donation, primary cause of death in case of deceased donor, donor maintenance details in case of brain stem dead donor, associated medical illnesses, relevant laboratory tests, driving license or any other document pledging donation. donation requested by whom, identity of counsellors, tissue(s) or organ(s) retrieved, demographic data about the tissue recipient, hospital conducting transplantation, transplant waiting list and priority list for critical patients, if these exist, indication(s) for transplant, outcome of transplanted tissue, etc.
- (7) Yearly reports in respect of National Registry shall be published and also shared with the contributing units and other stakeholders

Pledge for organ or tissue donation after death:

- Those persons, who, during their lifetime have pledged to donate their organ(s) or tissue(s) after their death, shall in Form 7 deposit it in paper or electronic mode to the respective networking organisation(x) or institution where the pledge is made, who shall forward the same with the respective networking organisation and the pledger has the option to withdraw the pledge through intimation.
- The Registry will be accessible on-line through dedicated website and shall be in conformation to globally maintained registry (ies), besides having national, regional and State level specificaties.
- National or regional registry shall be compiled based on similar registries at State level.
- The identity of the people in the database shall not be put in public domain and measures shall be taken to ensure security of all collected information.
- The information to be included shall be updated as per prevalent global practices from time to time.
- 33. Appeal.— (1) Any person aggrieved by an order of the Authorisation Committee under sub-section (6) of section 9 or by an order of the Appropriate Authority under sub-section (2) of section 15 or sub-section (2) of section 16 of the Act, may, within thirty days from the date of receipt of the order, prefer an appeal to the Central Government in case of the Union territories and respective State Government in case of States

(2) Every appeal shall be in writing and shall be accompanied by a copy of the order appealed against.

a) by virtue of being a near relative i.e	aged by the follo	owing reason(s);-	
would therefore like to donate my (name	of the organ)		to Shri/Smt.
(Donor) acreby apply to competent authority / Authorisation Co		(Recipient)	

We solemnly affirm that the above decision has been taken without any undue pressure, inducement, influence or allurement and that all possible consequences and options of organ transplantation have been explained to us.

Instructions for the applicants:-

Form 11 must be submitted along with the completed Form 1 or Form 2 or Form 3 as may be applicable.

- The applicable Form i.e. Form 1 or Form 2 or Form 3 as the case may be, should be accompanied with all
 documents mentioned in the applicable form and all relevant queries set out in the applicable form must be
 adequately answered.
- 3 Completed Form 5 must be submitted along with the laboratory report.
- 4 The doctor's advice recommending transplantation must be enclosed with the application.
- 5. In addition to above, in case the proposed transplant is between unrelated persons, appropriate evidence of vocation and income of the donor as well as the recipient for the last three years must be enclosed with this application. It is clarified that the evidence of income does not necessarily mean the proof of income tax returns, keeping in view that the applicant(s) in a given case may not be filing income tax returns.
- The application shall be accepted for consideration by the competent authority / Authorisation Committee only if it is complete in all respects and any omission of the documents or the information required in the forms mentioned above, shall render the application incomplete.
- 7. When the donor is unrelated and the donor and/or recipient belong to a State/Union Territory other than the State/Union Territory, where the transplant is intended to take place, then the Tehvaldar or the officer authorised for the purpose of the domicile state of the donor or recipient as the case may be, would provide the verification certificate of domicile of donor/recipient as the case may be as per Form 20. The approval for transplantation would be considered by the authorisation committee of the State/District/hospital (as the case may be) where the transplantation is intended to be done. Such verification Certificate will not be required for near relatives including cases involving swapping of organs (permissible between near relatives only).

We have read and understood the above instructions.

HEAD OF THE INSTITUTION

FORM 14 APPLICATION FOR REGISTRATION OF TISSUE BANKS OTHER THAN EYE BANKS (To be filled by head of the institution) (See rule 24(1))

To.

The Appropriate Authority for organ transplantation.

(State or Union Territory)

We hereby apply to be registered as Tissue bank, Name

Name(s) of tissue (s)(Bone, heart valves, skin, comea etc) for which Registration is required.

The required data about the facilities available in the institution are as follows:-

- A. General Information:
- 1. Name
 - 2. Address
 - 3. Government/Private/NGO
 - 4. Teaching /Non-teaching
 - 5. Approached by:

Rail: Road: Yes Yes Yes No No No

Air: Yes No
5.Information Education and Communication (IEC) for Tissue Donation

6 Type of tissue bank: Auto Logons /Allograph/Both

B. DONOR SCREENING

REMOVAL OF TISSUE AND STORAGE:

Availability of adequate trained and qualified Personnel for removal Tissue	Yes/No
(annex detail).	
Names, qualification, and address of the doctors/technician who will be doing removal of tissue.	Yes/No
(annex details)	
3. Facilities for removal of Tissues	Yev/No
Whether register of recipient waiting list available.	Yes/No
5. Telephone arrangement available.	YevNo
(Telephone Number)	727 (50 (50 ()
6. Availability of ambulance/ vehicle or funds to	
Pay taxi for collecting tissue from outside:	Yes/No
7. Sets of instruments for removal of tissue	Yes/No
8. Facilities for processing of tissue	Yes/No
9. Refrigerator for preservation of tissue	Yes/No
	257523711
10. Special containers for preservation of tissue during transit.	Yes/No
11. Suitable preservation media	Yes/No
12. Any other specific requirement as per tissue	Yes/No
C.PRESERVATIONS OF TISSUE	
Arrangement of preservation of Tissue	Yes/No
rationg entent of preservation of essage	1.056550
D.RECORDS	
1. Arrangement for maintaining the records	Yes/No

Arrangement for registration of cases, donors and follow up of cases. Yes/ No

E.EQUIPMENT:

Instruments specific for the tissue

Yes/No

F LABORATORY FACILITIES(If the information is exhaustive please annex it)

 Names of the investigations carried out in the department.

b. Facility for testing for:

i. Human Immunodeficiency Virus Type I and II

Yes/No

ii. Hepatitis B Virus - HBc and HBs

iii. Hepatitis C Virus - HCV

iv. Syphilis - VDRL

 If no where do you avail it? Please mention name and address of institute.

d. Facility for culture and sensitivity of tissue

YewNo

GOTHER PERSONNEL

- 1. No. of permanent staff member with their designation.
- 2. No. of temporary staff with their designation
- 3. No. of trained persons

ANY OTHER INFORMATION

The above said information is true to the best of my knowledge and I have no objection to any scrutiny of our facility by authorised personnel. A Bank Daft/cheque of Rs. 10000/ (for new registration) and Rs. 5000 (for renewal) in favour of is enclosed.
